

How to Enable or Disable achiever logs in oracle database

1. First login to oracle database in mobxterm using oracle credentials.
2. Then connect to database using command `sqlplus / as sysdba`
3. For checking the achiever logs run the command `select name,log_mode from v$database;`
4. Now for checking its enable or disable `archive log list`
5. For Disable archivelog mode
 - `shutdown immediate;`
 - `startup mount`
 - `alter database noarchivelog;`
 - `alter database open;`
6. and or Enable archive log mode
7. make sure db is running in spfile `SQL > alter system set log_archive_dest_1='LOCATION=/uv1249/arch/PROD'`
`scope=spfile;`
 - `shutdown immediate;`
 - `startup mount`
 - `alter database archivelog;`
 - `alter database open;`
