

# HOW TO APPLY PATCH IN ORACLE APPS

1. FIRST OF ALL, UPLOAD THE PATCH ON THE PATCH\_TOP DIRECTORY USING MOBEXTERM.
2. NOW LOGIN TO APPS USING CREDENTIALS.
3. NOW GOTO PATCH TOP QUERY USING TERMINAL COMMAND `cd $PATCH_TOP`.
4. NOW UNZIP THE PATCH USING COMMAND `unzip -o patchname`.
5. ENTER THE PATCH DIRECTORY USING COMMAND `cd patchname`.
6. NOW RUN THE **COMMAND** `adop phase=apply patches=patchname apply_mode=hotpatch` and enter all desired credentials.
7. Now the applying patching phase is complete and enter command `ls -lrt` for seeing the list of all the patches in patches\_top directory.
