RESTART ORACLE APPS

1. FIRST OF ALL, LOGIN TO SERVER OF APPS.

2. RUN THE ENVIRONMENT FILE BY USING COMMAND . EBSapps.env run.

3. Now goto main directory using command cd $ADMIN_SCRIPTS_HOME.

4. NOW run command ./adstpall.sh.

5. Now put all credentials.

6. Now the APP is down successfully.

7. For checking run the command ps -ef|grep FNDLIBR|awk '{print $2}' |xargs kill -9.

8. If the result is No such process it means the app is down.

9. For again Up or live the app run the command ./adstrtal.sh.

10. Enter all the required credentials.

11. Now the oracle apps will be restart successfully.
